

Apprentice training and delivery

At Imagine Education, we design our student visits to fit in with their centre. Frequency and length of visit is negotiated with the Centre Director to ensure that there are no disruptions to the day-to-day running of the centre. This practice allows the Centre Director to have input into the study plan, allowing for the opportunity to individualise training according to the student and the service. Along with this, Imagine Education's comprehensive, up-to-date, and relevant course material will ensure that students complete their qualification using the most current practices and knowledge. By enrolling in our courses, you will receive:

- Tailored visits to the workplace depending on the students individual needs and learning styles;
- All resources, including text books, provided to the student;
- Access to trainer both at the workplace, and via email and phone;
- Interactive class room, including many practical aspects;
- Placement within quality services close to home; and
- If you can't find the "right" apprentice, we offer a free recruiting service of apprentices.

Currently offering Cert. III and Diploma in
Early Childhood Education and Care at a
100% subsidised rate as per the Queensland
Government's new User Choice Program

Introducing Margie

Margie James is our Early Childhood Education & Care trainer. She has 21 years experience within the Early Childhood Education sector, and has completed her Bachelor of Education Early Childhood. Margie has worked all over Australia in a variety of services, including local government centres, private companies, and community-based services.

High quality early childhood education is Margie's passion. This passion, coupled with her extensive child development knowledge and experience, ensures that students are taught the most current theory and best practice.

Imagine Education Early Learning Centres

Imagine Education Australia has two early learning centres on-site at our Main Campus for our child care students to access for live practical training. At Imagine, believe that children are capable learners and provide optimum opportunities for individuals to be the very best they can be in all areas of development. Our two centres provide quality educational care for children from birth to school age and offer a Queensland Government-approved Kindergarten Program.
